STELLA (XINYI) HUANG

(206) 3549920 | stella.hxy@outlook.com | https://stellaahh.github.io/

EDUCATION

University of Washington, Seattle | Seattle, WA **Aug 2023 – Expected June 2027**
B.S. in Human-Centered Design and Engineering

- GPA: 3.7/4.0
- Dean's List, 5 consecutive quarters
- Relevant Coursework: UX Research, Data Analysis with Python, Inclusive Design, Interaction Design, Prototyping

DESIGN PROJECT

Interactive Physical Education Toolkit "*Bloom*" | Seattle, WA **Mar 2026 - June 2026**
Designer

- Addressed gaps and discomfort in puberty and menstrual health education by designing a tactile learning toolkit that transforms abstract biological concepts into accessible, hands-on interactions.
- Developed and evaluated an interactive fabric book combining textile models, 3D-printed anatomical components, and laser-cut elements; incorporated feedback from 50+ showcase participants, professors, and UX researchers to improve accessibility, clarity, and engagement.

Music-Based Inspiration Web App "*Creative Starter*" | Seattle, WA **Jan 2026 - Mar 2026**
Product Designer & Developer

- Developed a Flask-based recommendation system integrating 4 APIs and 6+ creative categories to generate mood-based artwork recommendations with contextual explanations.
- Combined Spotify music analysis with artwork metadata to create personalized connections between users' musical preferences, emotional themes, and visual inspiration.
- Designed user flows and interface components to deliver an intuitive exploration experience for discovering creative ideas.

Roommate Cooking Coordination App "*HusCooks*" | Seattle, WA **Sept 2025 - Mar 2026**
UX Researcher & Product Designer

- Conducted 10+ user research with off-campus students to identify challenges in roommate cooking coordination, including scheduling conflicts, motivation, and shared responsibilities.
- Designed and iterated an end-to-end coordination platform through 10+ prototype iterations and usability tests with four user groups, translating research insights into collaborative planning, grocery management, and reflection workflows.

PROFESSIONAL EXPERIENCE

Atantares | Suzhou, China **July 2025 - Aug 2025**
Design Internship

- Redesigned the company logo and visual identity system to better communicate Atantares' semiconductor-based biotechnology innovations, improving brand consistency across digital and marketing materials.
- Conducted competitor research and analyzed industry design trends to inform the redesign of website layouts, information hierarchy, and visual components for clearer product communication.
- Prototyped responsive website pages using wireframes and high-fidelity mockups, refining user flows and interface design to enhance usability and accessibility for technical and non-technical audiences.

Fortune Grand Technology Inc. | Suzhou, China **July 2026 - Aug 2026**
Design Internship

- Analyzed smartwatch speaker development by translating user needs into engineering requirements and evaluating how design decisions shaped product performance.
- Interviewed stakeholders across product, engineering, and manufacturing teams to understand how user expectations moved from product requirements to technical decisions and manufacturing processes.
- Evaluated manufacturing workflows and design trade-offs between product constraints, performance goals, and production feasibility.

SKILLS & INTEREST

- **Design:** UX Research, User Interviews, Usability Testing, Journey Mapping, Wireframing, Prototyping, Inclusive Design
- **Physical Prototyping:** 3D Printing, Laser Cutting, Sewing, Video Prototyping
- **Programming:** Python, Flask, JSON, CSV, NumPy, Matplotlib, Altair, HTML, CSS
- **Languages:** English (fluent), Mandarin Chinese (native)
- **Interest:** Drawing
